Greetings from Poland!

Our family is proud to have produced fine Spinning Wheels and Looms for more than 100 years. We would like to express our sincere appreciation and gratitude to our dedicated customers whom have made Kromski & Sons the successful, well-known brand that we are today in the hand spinning and weaving world. We are delighted that the functionality of our products equals the beauty that each displays and that because of this, they have been so well received around the world. To provide the world with these types of products remains our ambition that began so many years ago as a simple dream.

As the third and fourth generations of Kromski's we, along with our employees, personally plan and hand craft each of our products from our workshop in Wolsztyn with careful consideration and fondness. We hope that this convenient reference catalog gives you a small window into the precision and detail that is put into each of our products. It is our desire that these products bring you & your family a lifetime of happy moments and meaningful memories for generations to come.

Bardzo dziękujemy!

THE SYMPHONY

When people think of spinning wheels, they usually envision a big, beautiful Saxony style wheel. The Saxony style wheels were the first spinning wheels in history that added a treadle in order to free both hands of the spinner. The Symphony exemplifies the classical style of these wheel types!
